TYCHE
Remote Communication

1.WHAT IS REMOTE COMMUNICATION APP?

Tyche Remote Communication APP is the APP that allows user to communicate remotely while watching from Tyche’s point of view.

2.REMOTE COMMUNICATION INSTALLATION

To install, open Google Play Store on your phone and search for Tyche Remote Communication. Or if you had installed the TycheDashBoard App on your phone then this App is listed already. Note that the publisher is Bonavision. After successful installation, you will see the shortcut icon on the device screen as shown below.

3.HOW TO USE REMOTE COMMUNICATION APP?

In order to use the application, you need two smartphones with the application installed in both.

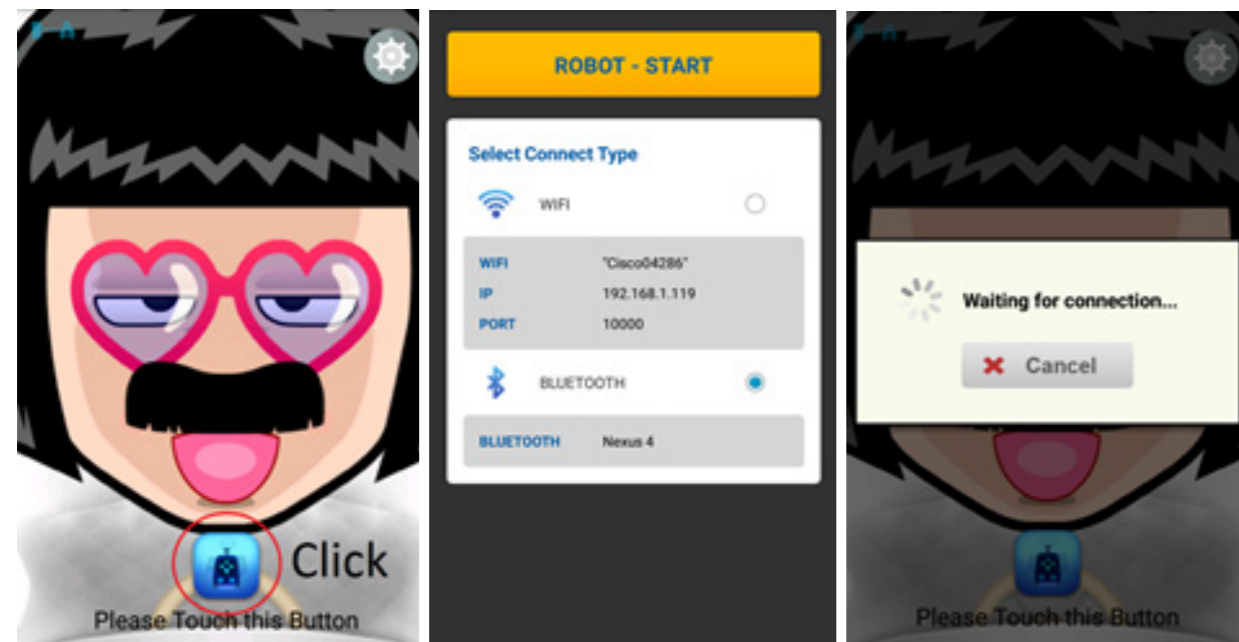

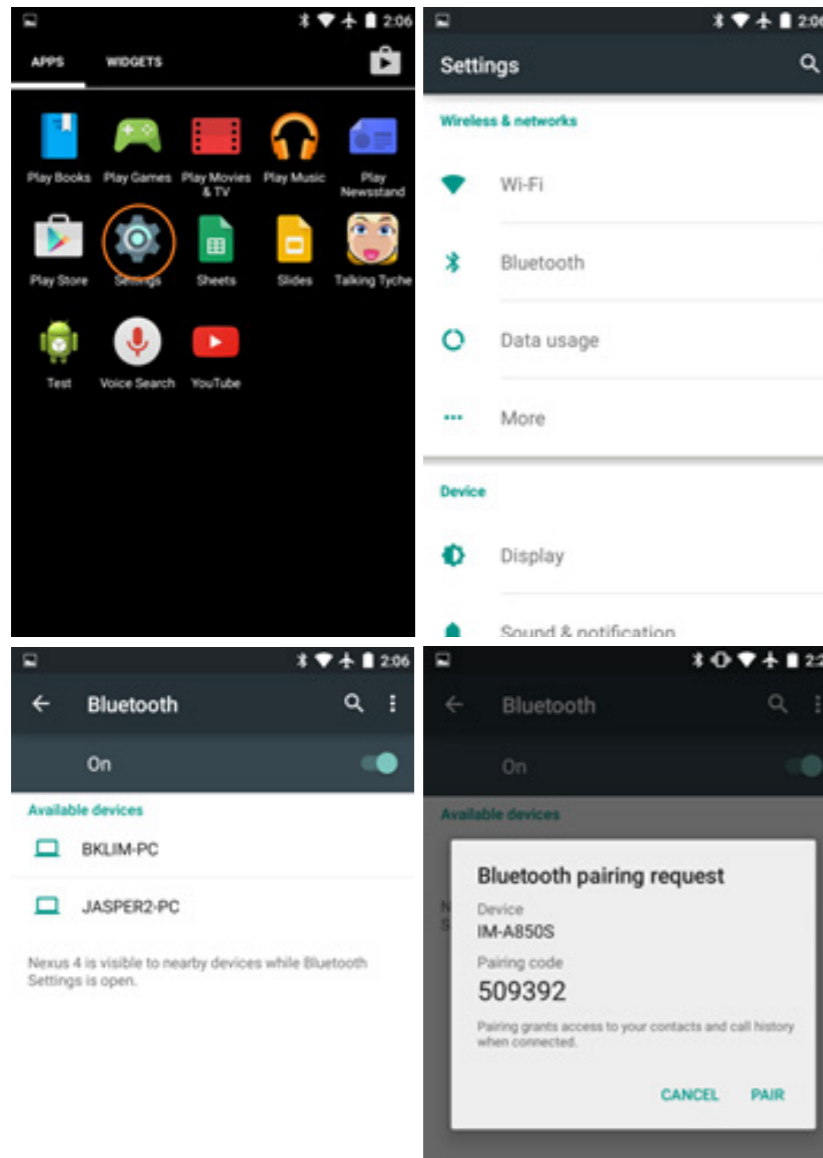

A.BLUETOOTH CONNECTION

In order to connect through Bluetooth, you have to pair the two before you can launch the application. Follow the instructions with screenshots below to pair up the two smartphones. Setting up the sender and the receiver smartphones use the same instruction.

i.Bluetooth Pairing

- 1) Open Settings -> System -> Bluetooth OR
- 2) Open Settings -> Bluetooth

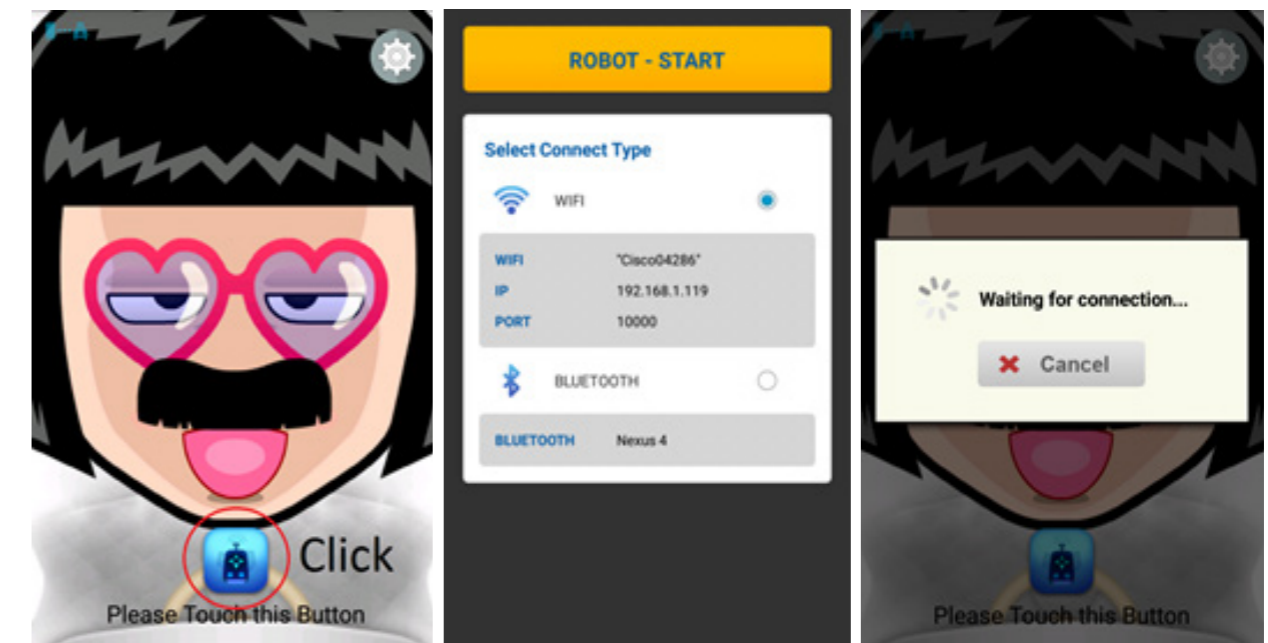

TYCHE Bluetooth Connection

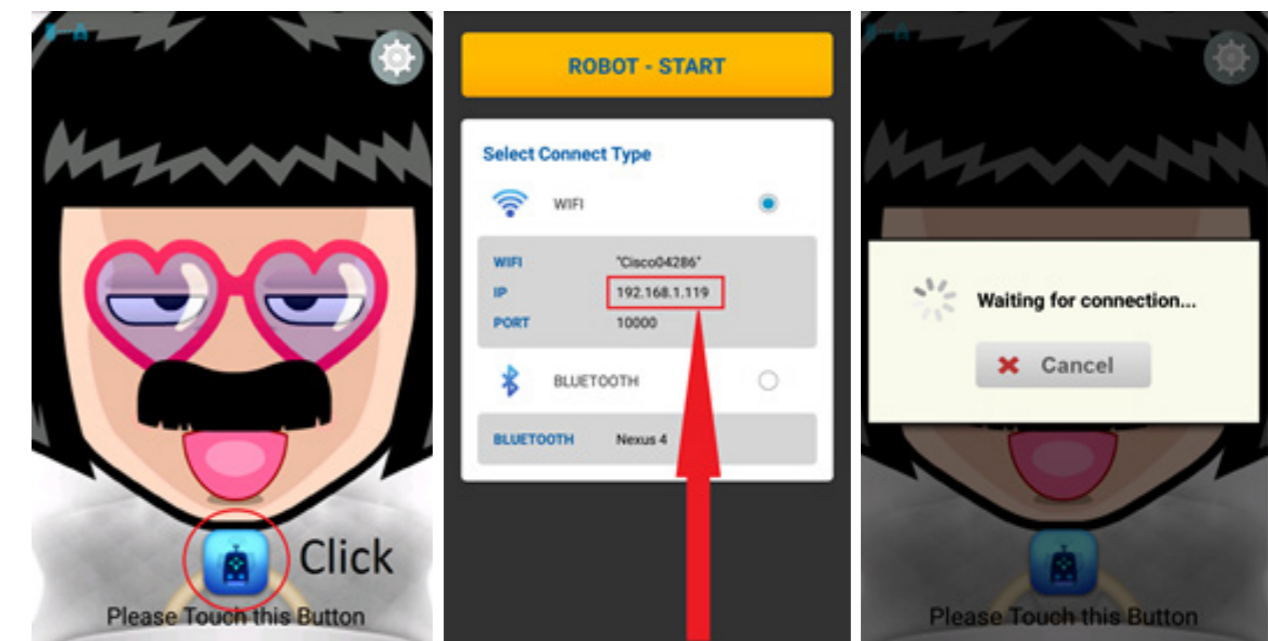

TYCHE Wifi Connection

A.WIFI CONNECTION

To use the application through Wi-Fi, follow the instructions shown in screenshots below. Both the smart-phones should be on the same router.
For the smartphone docked on Tyche body, you must completed this section before moving on to the next step.

On the communicating smartphone with the robot, Type the same "IP" the smartphone on Tyche is using.
